I am looking for a **Ph.D. program on robotics**. I have strong background and research experience on multi-agent reinforcement learning and game theory with publications in **top-tier journals and conferences** as the leading author. I have two-year **industrial experience** on applying deep learning to audio processing and computer vision.

EDUCATION

Bilkent University
  M.S. in Electrical and Electronics Engineering
  Advisor: Muhammed Omer Sayin
  Tentative Thesis Title: Multi-Team Reinforcement Learning

Ankara, Turkey
2023-2025 (Expected)
GPA: **4.0** / 4.0

Bilkent University
  B.S. in Electrical and Electronics Engineering

Ankara, Turkey
2018 – 2023
GPA: **3.96** / 4.0

FELLOWSHIPS & AWARDS

- International Young Researchers **Scholarship** from The Scientific and Technological Research Council of Türkiye (TUBITAK) during my M.S. studies

- **Ranked 5th** in graduating from the Electrical and Electronics Engineering Department

- High Achievement **Scholarship** from the Republic of Turkey Prime Ministry during my B.S. studies

- **Ranked 2nd** in the 2018 **Nationwide University Entrance Examination in Turkey** *(among 2 million high school students who took the exam)*

- **Silver Medal** in the 2017 **Turkish National Mathematics Olympiad**

- **Gold Medal** in the 2014 **Junior Balkan Mathematical Olympiad (JBMO)**

INDUSTRIAL EXPERIENCE

InterLabs Advanced Technologies
Research and Development Engineer

Ankara, Turkey
Aug. 2023 - Oct. 2023

- Research and development on audio recognition, noise cancellation, and source localization on microphone arrays. Microphone array design for UAVs

InterLabs Advanced Technologies
Engineer Trainee

Ankara, Turkey
Aug. 2022 - Aug. 2023

- Research on computer vision, machine learning, audio recognition, noise cancellation, and source localization
- Research and Implementation of state-of-the-art Super-Resolution algorithms
- Research on clothing and attribute recognition from images.
- Implementation of Speech Distortion Weighted Multichannel Wiener Filter for adaptive noise canceling.
- Implementation and comparing of the performances of different variants of source localization algorithms such as GCC, MVDR, DS.
- Implementation of LSTM for voice detection task.

MEMBERSHIPS IN SCIENTIFIC SOCIETIES

IEEE and IEEE Control Systems Society Member since 2024
